1st MCS

Material Characterization Symposium

More than measurement

March 10-12, 2027
Wednesday - Friday

Terme Čatež, Slovenia
Accommodation at Hotel Terme

The 1st Material Characterization Symposium (MCS), hosted by AstrineXLab, connects industry innovation with academic research, alongside equipment manufacturers, bringing together scientists and professionals in materials research.

Symposium Topics

- **Scientific Topics**
- **Application Fields**
- **Applied Analytical Techniques**

Exclusive Workshops

- **Presentation Skills**
- **Business Networking**

Flash Talks

5-minute research presentations from academia and industry, evaluated by an expert Scientific Review Committee. All accepted abstracts will be featured in the online Book of Abstracts, with awards for the Top 3 Talks.

PRESENT YOUR RESEARCH

Interested in participating? Visit our website for Symposium Topics, abstract submission, and registration details.
